

## Zengarra Serious Pampering Package for two persons.

A private suite for two nights and three days, with the second day devoted to pampering you and your partner's bodies. Imagine you both enjoying some pure indulgence, from top to toe. The whole treatment is carried out in the privacy of the suite or on the discrete deck area by the Music Pavilion with views over the pool to the Scenic Rim Mountains beyond.

The pampering starts with warm exotic oil being gently drizzled onto your body. This is followed by the laying on of the heated volcanic stones created many thousands of years ago coupled with a firm, rhythmic massage. The repeating sequences will release your tensions as the energy of the rocks and the massage penetrate deep into your tissues, smoothing and soothing.

After you gently surface from the massage enjoy a refreshing carefully prepared fruit tea and then have a tantalizing and exotic mini facial using extracts of fruits and nature's bounty including seasonal ingredients from Zengarra's own orchard.

Afterwards, another, different special tea will be served to you as you enjoy a fantastic foot treatment to re-vitalize those tired toes.

The therapist will alternate your treatments with your partners so the day just slips away in a succession of pleasurable experiences for you both. After your treatments enjoy a swim in the solar-heated pool and, draped in towels lie on the deck and listen to Christine play romantic and classical music just for you. A special platter of tasty cheeses and fresh fruit will be served with a glass of Zengarra Orchard Fruit Juices in season.

Then drift off for a snooze and awaken ready to enjoy a carefully chosen evening meal under soft candlelight, with a glass of champagne to preface your dining experience, and a glass of superb wine to accompany your meal. Superb coffee and a fine French Cognac will finish your day.

This treatment is for couples, or partners.

Times and the order of events can be adjusted to suit individual circumstances by mutual arrangement.

All the special aroma oils, treatments and all meals and drinks as described above for the treatment day are included in the price. Breakfasts on both mornings are included.
